### PROFESSIONAL SUMMARY

Junior Software Developer with software engineering training and practical experience building applications across web, desktop and mobile development. Skilled in Java, Python, C#, JavaScript, HTML, CSS, SQL, React and .NET MAUI, with hands-on experience in object-oriented programming, testing, version control and application development. Also trained in mobile development using Flutter and Dart. Brings strong communication, organisation and problem-solving skills from previous professional experience.

### TECHNICAL SKILLS

**Programming Languages:** Java, Python, C#, JavaScript, Dart

**Web Development:** HTML, CSS, JavaScript, React

**Mobile Development:** Flutter, Dart, .NET MAUI, XAML

**Databases:** SQL, SQLite, PostgreSQL

**Tools & DevOps:** Git, GitHub, GitLab, Docker, CI/CD

**Software Engineering:** OOP, TDD, Unit Testing, Debugging, REST APIs

### PROJECTS

**AI Presentation Coach** | C#, .NET MAUI, XAML

Mobile application designed to help users practise presentations and build confidence when speaking.

**CyberGuard AI** | Python, Streamlit, Pandas, Plotly

Cybersecurity dashboard that analyses security logs, identifies potential threats and generates security reports.

**SmartDevices** | C#, .NET, xUnit

Smart-home simulation demonstrating object-oriented programming principles and unit testing.

### PROFESSIONAL EXPERIENCE

**Software Engineering Student** | WeThinkCode\_ | September 2024 – December 2025

Developed software projects while working with programming, databases, testing, version control and software engineering practices.

**Administrator** | FPS Properties | June 2015 – December 2018

Provided professional client support, handled administrative tasks, communicated with clients effectively, and ensured assigned tasks were completed accurately and efficiently.

**Receptionist** | Bowarts Properties | January 2013 – May 2015

Gained professional experience in administration, organisation, communication and working with clients.

**Cashier** | Cash Crusaders | January 2012 – December 2012

Developed strong customer service and communication skills while assisting customers and processing transactions.

**Cashier** | Cape Quarter Spar | January 2011 – December 2011

Developed strong customer service and communication skills while assisting customers and processing transactions.

### EDUCATION & CERTIFICATIONS

**Software Development Program** | UWC Samsung Future Innovation Lab | May 2026 – February 2027

Practical software development and application development training.

**Software Engineer** | WeThinkCode\_ | September 2024 – December 2025

Software engineering training covering programming, software development, databases, testing and engineering practices.

**Mobile Development Certificate – Elective** | WeThinkCode\_ | 2025

Mobile development using Flutter and Dart.

**Public Management** | Northlink College | January 2019 – October 2020

**National Senior Certificate** | Tuscany Glen High School | January 2006 – December 2010
